SUMMARY

Senior Software Engineer (iOS Lead) with 5+ years of experience architecting, building, and scaling high-performance native iOS applications. Expert in Swift, SwiftUI, UIKit, Combine, Async/Await, and Modular Architecture. Proven track record of leading cross-functional engineering teams, configuring automated CI/CD release pipelines (Fastlane, GitHub Actions), managing App Store Connect deployments, and driving AI-assisted development workflows.

SKILLS

Core iOS Technologies : Swift, SwiftUI, UIKit, Combine, Async/Await, Modular Architecture, Auto Layout, Core Data, AVFoundation

DevOps & CI/CD : CI/CD Pipelines, Fastlane, GitHub Actions, App Store Connect, TestFlight, Automated Builds, Release Management

Architecture & Leadership : Technical Team Leadership, System Design, MVVM, VIPER, SOLID Principles, Code Reviews, Mentorship

Hardware & Integrations : Bluetooth Low Energy (BLE), Core ML, Agora SDK, Socket.IO, APNs, FCM, Cashfree Payment Gateway

AI Tools & Productivity : Claude (Anthropic), Claude Code, ChatGPT, GitHub Copilot, Prompt-Driven Agentic Workflows

EXPERIENCE

Fancall Private Limited

Jan. 2024 – Present

Senior Software Engineer (iOS Lead)

Ahmedabad, India

- Lead technical mobile architecture and direct a cross-functional engineering team of 12–13 members across iOS, Android, and Backend domains, driving sprint planning, code reviews, and delivery execution.
- Architected and delivered native iOS streaming client applications using Swift, SwiftUI, and MVVM modular architecture, scaling to **350K+ downloads** with a 4.3-star store rating.
- Configured and managed automated CI/CD deployment pipelines using Fastlane and GitHub Actions for continuous build verification and TestFlight/App Store releases.
- Utilized Swift Concurrency (Async/Await) and Combine framework for real-time UI data binding and reactive state management.
- Analyzed memory footprints using Xcode Instruments to eliminate bottlenecks, cut crash rates, and **double call-connection success rates (2x)**.
- Pioneered AI-assisted development tooling (Claude, Copilot) across the engineering team, **accelerating feature delivery timelines by up to 2x**.

Safe Pro AI Video Research Labs Pvt Ltd

June 2023 – Jan. 2024

Mobile Application Developer (iOS / AI)

Bengaluru, India

- Integrated Core ML models into mobile hardware interfaces for fast, on-device facial recognition inference and attendance automation.
- Established unit testing practices (XCTest) within the CI/CD workflow and detailed architectural documentation to simplify onboarding.

DRC Systems

Feb. 2023 – June 2023

Mobile Developer

Gandhinagar, India

- Built and shipped the MeyDan MarketPlace e-commerce application end-to-end in 4 months using RESTful API parsers and reactive state management.
- Executed automated continuous deployment cycles (CI/CD) and prepared submission packages for public App Store release.

Hyperlink InfoSystem

Mobile Engineer

Jan. 2022 – Feb. 2023

Ahmedabad, India

- Developed and shipped published client applications including BagZag (Social Marketplace), Kloto, Grupem, and Prep-It.
- Engineered real-time messaging workflows, location-based logistics tracking, and RESTful API integrations across enterprise mobile projects.

Om Tec Web India

Mobile Developer Intern to Full-Time

Jan. 2021 – Dec. 2021

Ahmedabad, India

- Built native iOS features and backend communication layers for on-demand driver and logistics platforms (Sarve me Driver, Pudo Fast, Blookd).
- Refactored legacy codebases to modern Swift design standards, improving stability and maintainability.

FEATURED PROJECTS

Fancall

Live Audio/Video & Communication Platform

- Real-time communication app featuring live audio group rooms, in-app wallet, payment integrations, push notifications, and automated CI/CD release pipelines. Published on Apple App Store & Google Play Store.

egun.in

BLE Smart Mobile Application

- Architected mobile integration for Bluetooth Low Energy (BLE) hardware connectivity, implementing custom CoreBluetooth protocols, GATT service discovery, and zero-latency data packet parsing.

Published Client Portfolio

BagZag, Kloto, Grupem, Prep-It & MeyDan MarketPlace

- Shipped multiple high-scale iOS applications to the App Store, featuring social e-commerce feeds, real-time chat infrastructure, interactive test preparation engines, and dynamic REST API integrations.

FaceSense

AI Facial Recognition Attendance App

- On-device AI vision app using Core ML for automated identity verification on hardware-constrained mobile devices.

EDUCATION

Parul University

Bachelor of Technology (B.Tech) in Computer Engineering

2018 – 2022

Vadodara, India
